

Prot.: 37/CM

Rome, 18<sup>th</sup> March 2015

To: All MEDAC members

In the General Assembly held on 12 March in Rome, while discussing the situation of membership fees contributions, it was remarked the declared impossibility of the two Greek organizations that are member of MEDAC (PEPMA and PASEGES) to comply with the annual membership fee payment.

The Fisheries organisations attending the General Assembly all agreed that an Advisory Council on fishing in the Mediterranean cannot be conceived without the participation of Greece and, in the light of this, they have unanimously expressed their willingness to cover the annual fees of the Greek organisations in order not to lose their important contribution to the work of MEDAC and as a gesture of solidarity in view of the current difficult and delicate economic situation.

The two membership fees for 2015, amounting to €2800, would be covered by all the MEDAC member organizations that are part of the 60%, without excluding those of the 40% wishing to contribute as well, so that PEPMA PASEGES will be able to take part in the meetings organised by MEDAC, including those scheduled to take place in Greece, in September.

For administrative consistency, we request that you communicate by writing to the Secretariat of the MEDAC your commitment to pay an additional fee that should be around 100€ for each organization, but it will be calculated exactly once the total number of subscribers is finalized.

Kind regards,

Giampaolo Buonfiglio  
*President*
