**Ref N: 038/01.08.2018**

To the Chairman of  
The Mediterranean Advisory Council

Dear Mr. Gianpaolo Buonfiglio,

The Black Sea Advisory Council is writing to you with a request to arrange a visit at your office /in Rome/ in order to exchange experience and get acquainted with your activities.

We would be grateful if you could accept us for 2 /two/ days at any time within the period 20.10.2018 – 20.11.2018. We were hoping that we could be introduced to different techniques and equipment and be given the opportunity to visit some fishing ships in order to see how some technology typical of the Mediterranean is applied in practice as well as what methods and what equipment are used to harvest demersal species – shellfish, bivalve species, fish and pelagic fish. We are interested in any opportunities for the assignment of scientific research to be budgeted by the advisory councils.

Our delegation will comprise of a six-person working group 'Sustainable fishing - gears and resources' and 4 people – secretariat. All our travelling and accommodation expenses will be covered by the budget of the BISAC. It would be highly appreciated if you could accept us as your guests at a date convenient for you.

Thank you in advance for your prompt reply.

We are looking forward to our mutually beneficial cooperation.

Yours Sincerely,

Secretary General of the BISAC, Yordan Godpodinov

Chairman of the BISAC, Manaila Marian Sorinel
